MAKING LEARNING FUN

Science experiments are always fancy and fun for all. Experiments demystify the cause-effect relationship behind everyday acts of our routine lives.

Wonderful toys and models that work on the principles of Physics.....Colour displays and pop ups that result from chemical reactions.....

How charming it would be to play with such science gadgets and do some fun experiments! We organise a hands on session on improvisation and making of teaching aids for popularising science among all student teachers who appreciate science in daily life.

THE CLASSES ARE HANDLED BY
RENOWNED ACADEMICIANS. WE WELCOME
YOU ALL TO THIS FUN FILLED EVENT.

scheduled on 5/12/2019
