Linkage of Farook Training College with SCERT, Kerala

Farook Training College (FTC) has a strong linkage with SCERT, Kerala, which has been mutually beneficial for both institutions. The collaboration has led to several exchange and research programs that have benefited FTC teachers and MED students of the 2022-24 batch.

**Exchange Programs**

Under the linkage with SCERT, FTC has conducted two exchange programs for its teachers. These programs provided an opportunity for FTC teachers to learn about the latest developments in teacher education and research from SCERT experts. The teachers also gained valuable insights into the working of SCERT.

**Research Programs**

The linkage with SCERT has also facilitated research collaborations between FTC and SCERT. FTC faculty members have been involved

in several research projects with SCERT experts. These projects have led to the development of new knowledge and innovative practices in teacher education.

**Benefits for MEd Students**

Farook Training College  
P.O. Farook College, (Calicut)

MEd students of the 2022-24 batch have also benefited from the linkage between FTC and SCERT. The students have had the opportunity to participate in various exchange and research programs organized by the two institutions. These programs have provided the students with exposure to different perspectives on teacher education and have helped them to develop their research skills.

#### Overall Impact

The linkage between Farook Training College and SCERT, Kerala, has had a positive impact on both institutions. The collaboration has led to the exchange of ideas, the development of new knowledge, and the improvement of teacher education practices.

Farook Training College (FTC) has extended its collaborative efforts in the field of education by establishing a robust linkage with the District Institute of Education and Training (DIET), Malappuram. This partnership aims to foster educational growth and development through various programs and initiatives.

### Exchange Programs:

Similar to the collaboration with SCERT, the linkage with DIET involves organized exchange programs for FTC teachers. These initiatives provide a platform for teachers to engage with DIET professionals, exchanging insights into pedagogical practices, curriculum development, and the latest trends in education. Through these programs, FTC teachers gain exposure to the educational landscape at the district level and enhance their teaching methodologies.

### Research Collaborations:

The partnership with DIET also encourages research collaborations between FTC faculty members and DIET experts. Joint research projects are undertaken to address local educational challenges, share expertise, and contribute to the advancement of educational practices within

P.O. Farook College, (Calicut)

the district. This collaborative research approach fosters a spirit of innovation and brings about positive changes in teacher education.

#### Benefits for Teachers:

FTC teachers benefit from the linkage with DIET by gaining a deeper understanding of the specific educational needs and challenges within the Malappuram district. The exchange of ideas and experiences with DIET professionals enhances their teaching skills and enriches their knowledge base. The collaborative research projects contribute to the professional development of teachers and have a positive impact on the quality of education in the region.

#### Benefits for Students:

In addition to the advantages for teachers, students at FTC also reap the rewards of the linkage with DIET. MEd students, in particular, get the opportunity to participate in exchange programs and research initiatives organized in collaboration with DIET. This exposure broadens their perspectives, allowing them to gain insights into the unique educational dynamics of the district. The hands-on experience and interactions with DIET professionals contribute to the holistic development of MEd students.

### **List of teachers/students benefited by linkage with Farook Institute of Teacher Education**

#### **Benefits for Students:**

##### Enhanced Learning Opportunities:

Students have access to a wider range of resources, enhancing their academic knowledge and skills. The collaboration has broadened the curriculum, ensuring a well-rounded education.

##### Cultural Exchange and Diversity:

Student exchange programs have created a diverse and inclusive learning environment. Exposure to different cultures and teaching styles has expanded students' perspectives and enriched their overall educational experience.

##### Skill Development:

Co-curricular activities have provided students with opportunities to develop essential life skills such as teamwork, leadership, and communication. These skills are invaluable for their personal and professional growth.

#### **Benefits for Teachers:**

##### Professional Development:
