In response to the psychological aftermath of a devastating flood event in the region, Farook Training College's IQAC, in collaboration with Resilience Foundation, organized a critical "One Day Training Programme for Counsellors" on 28th August 2018. The training aimed at addressing the unique needs of children grappling with the aftermath of the flood, equipping counsellors with specialized skills to guide them towards normalcy and resilience. The programme, attended by a diverse group of counsellors from educational institutions and community organizations, featured expert-led sessions on trauma-informed counselling, recognizing signs of distress in children, and implementing age-appropriate interventions. The collaboration between Farook Training College and Resilience Foundation exemplified a community-driven approach to crisis response, emphasizing the role of mental health support in the holistic recovery of affected communities.

Throughout the day, participants engaged in interactive workshops and case studies that provided practical insights into navigating the complex emotional landscape of children affected by the disaster. The training emphasized the significance of cultural sensitivity, acknowledging diverse coping mechanisms, and tailoring counselling strategies to meet the individual needs of each child. By focusing on community-based approaches and the pivotal role of schools and local networks in facilitating the healing process, the programme aimed to build a cadre of empathetic and skilled crisis counsellors. International Webinar on '*Changing Trends in Teaching- Viewing the Indian Teaching Through An Oceania (Australia) Lens*'

24th June 2021

Farook Training College ensures maximum exposure to its students in matters of education and teacher training programs to enhance the quality of its pupils. The college acknowledges that one often lacks to recognise the lacuna within ones own education system unless it is compared with others. It is with this objective that Farook Training College in collaboration with Miqesia Students Council organised an international seminar as part of the web-talk series.

The second lecture of the web talk of the academic year 2021-22 was held on 24th June 2021, Thursday at 10:30 a.m. on Google meet platform. The lecture titled Changing Trends in Teaching - Viewing the Indian Teaching Scenarios through an Oceania (Australia) Lens had professor Raju Chako from Australia as its resource person. For the program, participated by B.Ed, M.Ed, Research Scholars, DECCE and teachers of FTC, the welcome speech was delivered by Ms. Nourin Sharaf of 1st B.Ed English.

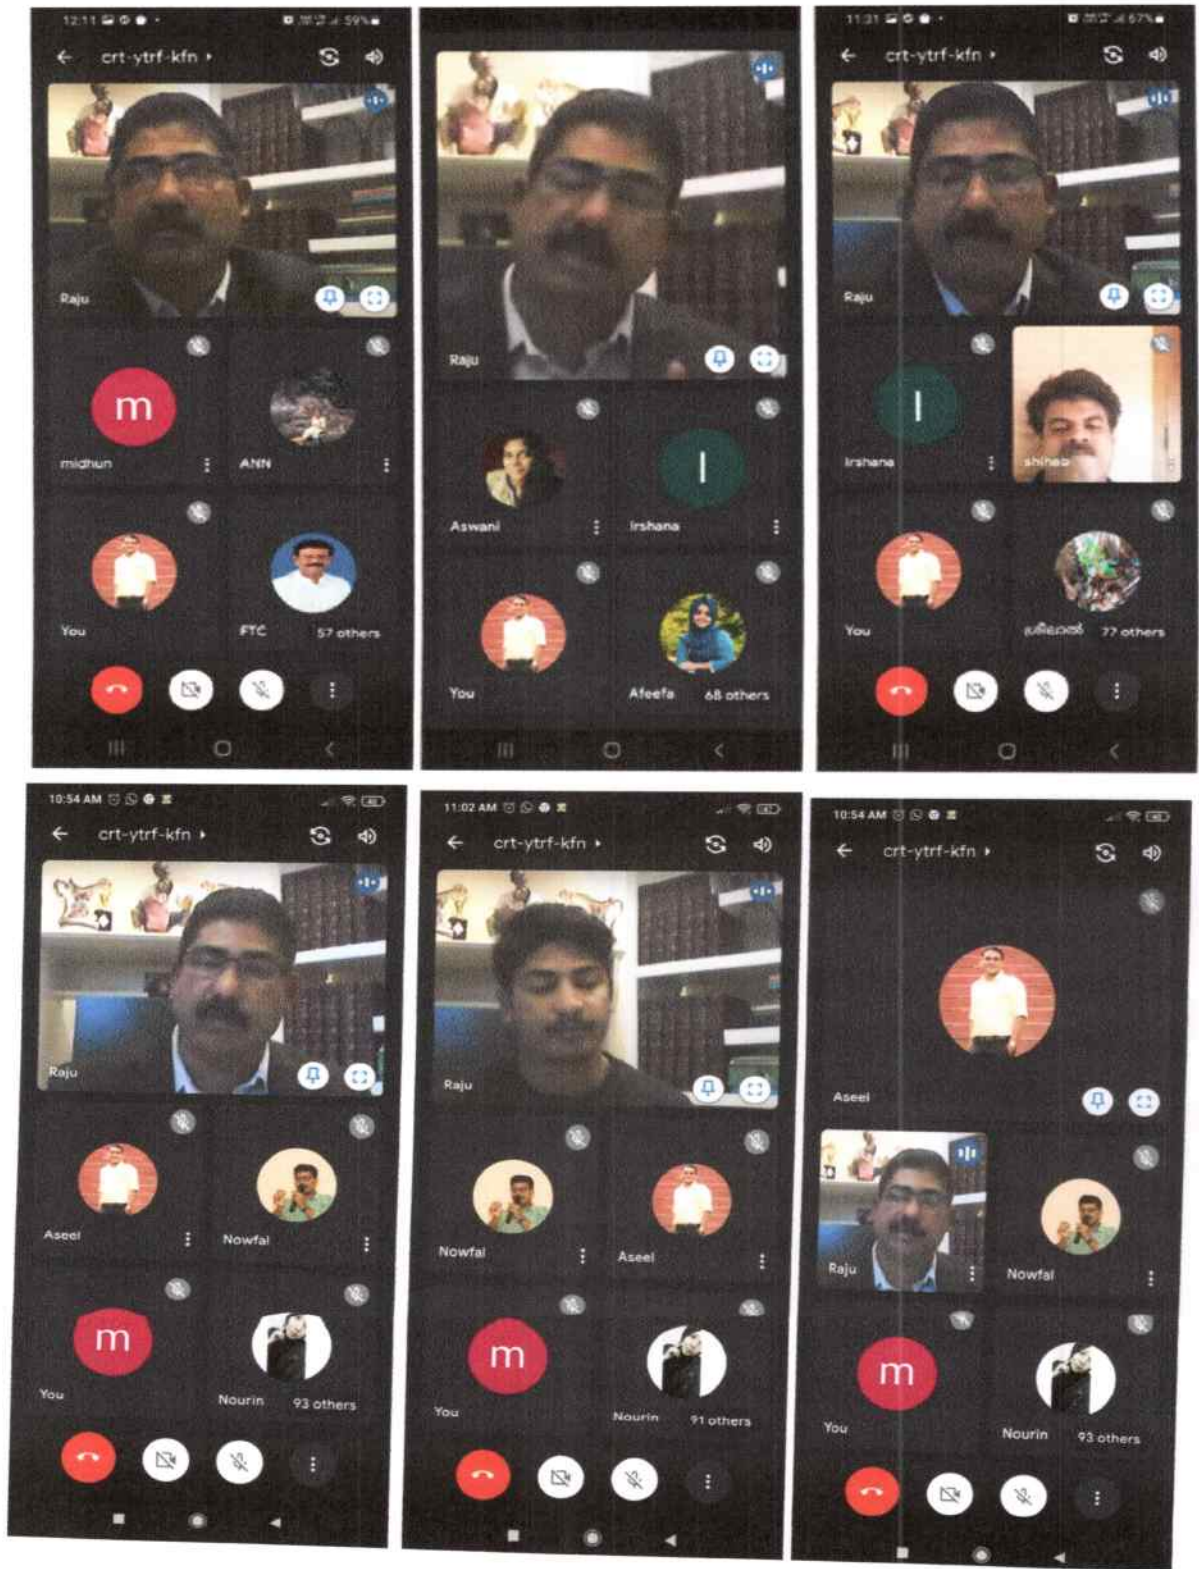

Dr.Mohammed Saleem, the Principal,FTC, delivered the presidential address.In the talk that ensued Prof. Raju Chako,teaching faculty of Social Work Discipline in CDU Australia and a Mental Health Clinician in DFFH, gave an outline of the system of education in Australia. He talked about how the curriculum in Australia has adapted to the demands of the rapidly changing world. He also focused on the appreciable features of the schools in Australia which give high importance to the learner's choice and freedom in selecting his/hers subjects of interest and about the individually focused educational strategy adopted there. The assessment system that emphasises on the application of knowledge rather than rote memorisation also formed the crux of the lecture. He concluded his lecture by stating the need of establishing a flexible system of education that is learner-centered, and adapted to the changing demands of the changing world. The talk was followed by a long interactive session where doubts were raised and clarified.

For the program, which was highly appreciated by both the teachers and students, Mithun Gopi, General Convenor of the Student's Council, FTC, gave the vote of thanks.
